New Mexico Parkinson's Forum

Help Make New Mexico Parkinson's Friendly!

The **New Mexico Parkinson's Forum** is a collaborative virtual workspace for Parkinson's Disease Support Groups and Advocates who want to make New Mexico a better place for People with Parkinsons and other Movement Disorders, their care partners, and supporting organizations.

The forum is a way to:

1. Share information and knowledge,
2. Advocate for greater awareness and access to services for Parkinson's and other Movement Disorders at the local, county, and state levels in New Mexico, and
3. Think creatively together about how to make New Mexico a "Parkinson's Friendly" place to live and work.

The forum uses Groups.IO, a discussion-list platform that will provide privacy for any discussions. Joining the forum will connect you to other members via private discussion lists that you can access by ordinary email or a web browser.

The forum is not a replacement for our independent support groups or organizations; it is intended to facilitate knowledge sharing about Parkinson's and Movement Disorders in New Mexico.

Join the forum at https://www.nmpdforum.org. Membership in the forum is free.
